Grenada, Carriacou & Petite Martinique

THE
BETTER GRENADA PLAN
THE PEOPLE'S MANIFESTO
2026

**Renewing Trust.
Securing the Future.
Delivering for All Grenadians.**

NNP Better for Everybody

TABLE OF CONTENTS

A MESSAGE FROM THE POLITICAL LEADER

Fellow Grenadians,

It is with great humility, hope, and an unwavering belief in the people of our nation that I present The People's Manifesto – The Better Grenada Plan.

Every generation is entrusted with the responsibility of shaping the future of its nation. Today, that responsibility belongs to us.

Grenada, Carriacou and Petite Martinique are blessed with extraordinary people. Throughout our history, we have faced challenges with courage, resilience, faith and determination. Time and again, we have demonstrated that no obstacle is greater than the strength and character of our people.

I believe our greatest national resource is not found beneath our soil or within our seas. It is found in the resilience, creativity, determination and compassion of the Grenadian people.

Over many months, we have listened carefully to Grenadians from every constituency, in the diaspora and every walk of life. We have heard the concerns of families struggling with the rising cost of living, young people seeking greater opportunity, businesses facing increasing challenges, communities wanting safer neighbourhoods, and citizens longing for more responsive, accountable and compassionate leadership.

This manifesto is our response.

The People's Manifesto – The Better Grenada Plan is more than an election document. It is a practical, responsible and forward-looking plan for governing our country and improving the lives of the people of Grenada, Carriacou and Petite Martinique.

We recognise that our nation faces significant challenges. The rising cost of living continues to place pressure on families. Many young people worry about employment and their future. Businesses need room to grow. Healthcare must improve. Crime, violence, substance abuse and declining social values concern many communities. Too many Grenadians also feel that our nation has become increasingly divided.

These challenges are real, but they are not beyond our ability to overcome.

I firmly believe that with responsible leadership, sound economic management, strategic investment and a renewed commitment to national unity, Grenada can build a stronger, fairer and more prosperous future.

We believe the government exists to serve the people, not the other way around. Leadership is not about power; it is about responsibility. Public office is a sacred trust that demands integrity, humility, accountability and an unwavering commitment to improving people's lives.

We also believe that lasting national progress cannot be achieved by the government alone. Building a better nation requires partnership between citizens, families, communities, churches, businesses, workers, civil society, our diaspora and every Grenadian who is prepared to play a part in our country's future.

Our vision is clear: to build A Better Grenada for Everybody. A nation where opportunity is within reach, families are stronger, communities are safer, public services are modern and responsive, the vulnerable are protected, and the government earns the confidence and trust of the people through integrity, transparency and accountability.

The road ahead will require courage, discipline and hard work. But I have never lost faith in the people of Grenada. I believe in our resilience, our compassion and our determination. Most of all, I believe that when we stand together, there is no challenge we cannot overcome and no future we cannot build.

This manifesto is therefore more than our plan for government.

It is an invitation to every Grenadian to become a partner in building the future we all deserve.

Together, let us build A Better Grenada for Everybody.

Hon. Emmalin Pierre

Political Leader

New National Party

A New Chapter for Grenada

We listened. We learned. We are renewing. We have a clear plan. We are ready to deliver.

For more than two decades, the New National Party served Grenada, Carriacou and Petite Martinique — building institutions, restoring stability after national crisis, expanding our roads, schools and clinics, and steering the country through a difficult debt adjustment back to firm fiscal ground. We are proud of that record. But we also heard, clearly and humbly, the message of the last general election.

This manifesto is our answer. It is not a recital of past achievements, and it is not a list of promises designed to be forgotten the morning after the polls close. It is a commitment to all Grenadians that was shaped by what we heard in homes, markets, farms, fishing communities, classrooms and small businesses across our nation.

A new NNP Government will recommit to delivering the outcomes of the **National Strategic Development Plan (NSDP) 2020–2035**, organised around four interconnected pillars: a stronger and more competitive economy, real protection for Grenadian households, a green and blue future that turns our natural advantages into lasting prosperity, and a secure financial future built on earning more as a country rather than simply taxing our people more.

THE NARRATIVE

We served. Two decades of stability, institution-building and national recovery.

We heard you. Cost of living, jobs for our young people, food prices, energy bills, housing, health and trust in Government.

We are renewed. A renewed team, a renewed approach, new ideas, fresh energy and a clear commitment to put people at the centre of government.

We are ready. A First 100 Days plan that signals readiness to govern — not just to campaign.

MEET THE TEAM

EXPERIENCE. RENEWAL. SERVICE. A SHARED COMMITMENT TO GRENADA.

The New National Party enters this new chapter with a renewed team, bringing together experience and fresh leadership, proven service and new ideas, professional expertise and deep community connection.

Our team reflects a simple belief: Grenada's next chapter requires capable people who understand the challenges facing ordinary Grenadians and are prepared to work together to deliver practical solutions.

We are building a team drawn from communities across Grenada, Carriacou and Petite Martinique—men and women with experience in public service, business, education, healthcare, agriculture, community development, youth leadership and other areas of national life.

A TEAM THAT COMBINES EXPERIENCE WITH RENEWAL

We value the experience, institutional knowledge and lessons gained through years of national service. At the same time, we recognise that changing times require new thinking, new skills and a new generation of leadership.

The new NNP brings these strengths together—experienced leaders working alongside emerging leaders who offer fresh perspectives, energy and ideas for the future.

A TEAM ROOTED IN COMMUNITIES

Leadership must remain connected to the people it serves.

Our candidates and representatives will be expected to listen, remain visible and accessible, understand the needs of their communities and work continuously with residents, businesses, churches, community organisations, young people, farmers, fishers, professionals and other stakeholders.

National development must reach every parish, constituency and community.

A TEAM WITH THE SKILLS TO GOVERN

The challenges facing Grenada require more than promises. They require leadership capable of understanding policy, managing resources, working with professionals and partners and turning plans into measurable results.

We have assembled a team with the experience, competence and willingness to learn required to lead across the economy, healthcare, education, agriculture, tourism, technology, infrastructure, social development, national security and the other critical areas of government.

A TEAM THAT CREATES SPACE FOR YOUNG PEOPLE AND WOMEN

The new NNP believes Grenada is strongest when more people have an opportunity to contribute.

We will continue creating meaningful space for everyone to participate in political leadership, public decision-making and national development—not simply as supporters, but as partners in shaping Grenada’s future. Special effort will be made to ensure that our women, and youth have equal opportunity to participate.

A TEAM COMMITTED TO INTEGRITY AND ACCOUNTABILITY

Every member of our team must understand that public office is a responsibility, not an entitlement.

We will expect high standards of integrity, professionalism, discipline, respect and accountability from those entrusted to serve. We will measure our success not by positions held, but by problems solved, opportunities created and improvements delivered in the lives of the Grenadian people.

ONE TEAM. ONE PURPOSE. A BETTER GRENADA.

We may bring different experiences, professional backgrounds and perspectives, but we are united around one purpose:

to serve the people of Grenada, Carriacou and Petite Martinique and build a country in which every person has a fair opportunity to succeed.

The Better Grenada Plan is therefore more than a collection of policies. It is the commitment of a renewed NNP team prepared to listen, to work, to lead responsibly and to be held accountable for results.

A stronger team. A renewed purpose. A Better Grenada for Everybody.

TOGETHER, WE WILL BUILD A BETTER GRENADA FOR EVERYBODY

OUR FLAGSHIP INITIATIVES

Our flagship initiatives represent our commitment to building a Better Grenada for everybody. They are practical, people centred initiatives designed to address the real concerns of our citizens, create opportunities for our young people, support families, protect our most vulnerable, strengthen our economy and improve the quality of life in every community. From reducing the cost of living and expanding access to affordable housing to creating jobs, improving healthcare, supporting farmers and fishermen, and investing in education and national development, these initiatives reflect our determination to turn the hopes and aspirations of our people into meaningful action. Guided by responsible leadership, sound management and a commitment to ensuring that no one is left behind, we will work to build a Grenada where every citizen has the opportunity to live with dignity, security and hope, and where progress is measured not simply by what we promise, but by the positive difference we make in people's lives.

Lower Personal Income Tax

We will reduce personal income tax from **28% to 25%**.

Double the Tax-Free Threshold

We will Increase the personal income tax-free threshold from **\$3,000 to \$6,000** creating a single tier tax free threshold. No one making \$6000 or less per month will pay personal Income Tax.

Lower Corporate Tax

We will reduce corporate tax from **28% to 25%** to help businesses recover and grow.

Removal of Personal Income Tax on Tips, Gratuities and Bonuses

We will remove personal income tax on tips, gratuities and bonuses, with 100% of tips to be paid to workers in the hospitality sector.

Bonus for Public Officers

We will introduce a bonus for public sector workers when the Government achieves an overall surplus in any given year.

Minimum Wage Review Every Two Years

We will review the minimum wage **every two years** in consultation with workers, employers and trade unions to ensure it keeps pace with changing economic conditions and the cost of living.

Flexible Work Arrangements

We will introduce flexible work arrangements for public officers where appropriate.

Optional Retirement Between 60 and 65 years

We will give workers registered with the National Insurance Scheme the option to retire between the ages of 60 and 65 years.

Protection of Public Officers' Pension Rights and Obligations

- We will regularise public officers consistent with the Constitution of Grenada.
- We will honour all 1958 Pension obligations consistent with the Constitution and the 1958 Pension Act.
- We will review the new pension legislation in consultation with the unions to ensure all eligible public officers who were in the system at the time of the court ruling, but were forced to join the new pension scheme, are allowed to benefit from the 1958 pension.

Reduced Cost of Utilities and Essential Goods

We will remove all taxes including VAT, on electricity, remove VAT on sugar and other essential items, and reduce the levy on water.

Community Solar Farms

We will launch solar farm projects in specific communities to further reduce electricity costs for families.

Support households and small businesses to produce more of their own energy and lower energy costs by making financing more accessible and affordable.

Rent- to- Own Housing Programme

We will expand access to home ownership through a Rent to Own Housing Programme.

National Youth Employment and Business Finance Programme

We will increase employment, Skills Training, entrepreneurship and financing opportunities for young people through job creation, grants, low interest loans and targeted training to help them develop their skills, start businesses and achieve financial independence.

Monetising Creative Talent

We will establish a programme to help creatives transform their talents into sustainable sources of income and viable businesses, while developing the necessary framework to protect their rights, recognise the value of their work and enable them to earn from their creativity and intellectual property.

Reliable School Bus and Night Transport Service

We will work with bus associations and the Royal Grenada Police Force to improve the safety and reliability of night transportation by exploring all options for piloting a national school bus programme and a reliable night transport service.

Vulnerable households Care Program

We will provide more targeted assistance to needy families with children in school, especially single mothers, while providing financial support, skills training and employment opportunities.

Twenty Four Hour Healthcare in Every Parish

We will provide access to 24 hour healthcare services in every parish.

National Health Insurance for Affordable Healthcare

We will establish a National Health Insurance system to expand access to affordable, quality healthcare and reduce the financial burden of healthcare on families.

Free Emergency Medical Transportation

We will provide free emergency medical transportation from Carriacou and Petite Martinique to Grenada.

Renewed MNIB for guaranteed market

We will renew and strengthen the MNIB with financing and guaranteed markets for farmers and fishermen.

National Predial Larceny Fund for Farmers

We will establish a dedicated Predial Larceny Fund to support farmers affected by theft.

National Insurance Fund for Fishermen

We will establish an insurance fund to provide greater protection for fishermen.

Senior Citizens Care Package

We will introduce a dedicated care package to support qualifying elders over 70 years with priority access, access to free medical services in Government facilities, home aide services, monthly subsistence allowance, free transportation through stakeholder partnership arrangements

Disability and Special Needs Care Package

We will introduce a dedicated care package for persons with disabilities and special needs with priority access, access to free medical services in Government facilities, school aide services, monthly subsistence allowance, free transportation through stakeholder partnership arrangements

Free Tuition, uniform, transportation, and material support for Students

We will continue the free tuition program and will provide additional assistance with transportation, uniforms and learning materials for students from families in need who attend TAMCC and NEWLO.

Road Network Development from Grand Anse to Sauteurs

We will advance a major road network development project connecting **Grand Anse to Sauteurs** from both the eastern and Western main road and through the Grand Etang road.

A Renewed Cultural Ambassadors Programme

We will renew and strengthen the Cultural Ambassadors Programme to honour, respect and promote Grenada's talent and culture nationally and internationally.

Land Regularisation Amnesty

We will regularise all lands occupied by families and offer a land regularisation amnesty for persons on Government lands with high accumulated interest.

Reduced Vendors and Promoters Fees

We will review and reduce vendor fees and promoters' licence fees to ensure fair and reasonable charges, and reduce VAT on public entertainment tickets to 10% to support promoters, vendors and consumers making Public Entertainment More Affordable

Reliable High Speed Internet

We will Connect every community to reliable high speed internet and expand free public internet access by providing free public Wi Fi in key public spaces in every constituency.

Promoting humane communities and responsible animal care through modernised animal welfare laws and a national programme for responsible ownership, spay and neuter, shelters, rescue, veterinary access, public education and stronger enforcement against cruelty.

Accelerate Oil and Gas Exploration and Production

We will accelerate Oil and Gas Exploration and Production by putting the sector back on course to expedite development and deliver the earliest possible economic benefits to the people of Grenada.

Lobby the Government of the United States

We will lobby the Government of the United States to have the Visa Bond removed through sustained diplomatic engagement focused on removing the measure and strengthening travel opportunities for Grenadians.

Driving National priorities from the centre of government through a National Delivery Unit within the Office of the Prime Minister to reduce bureaucracy, remove implementation bottlenecks and monitor results.

Protect Whistleblowers through stronger safeguards for persons reporting wrongdoing and misuse of public resources.

The First 100 Days - 25 Commitments

Readiness to govern — not just to campaign. Immediate actions Grenadians will see at once

1. We will remove all taxes including VAT, on electricity, remove VAT on sugar, and reduce the levy on water.
2. We will reduce personal income tax from **28% to 25%**.
3. We will Increase the personal income tax-free threshold from **\$3,000 to \$6,000** creating a single tier tax free threshold.
4. Launch the affordable-housing rent-to-own with existing units and identify lands for construction of new units.
5. Launch phase 1 of the Senior
6. Launch phase 1 of the Disability and Special needs Care package
7. Register families for the Vulnerable households Care Program
8. We will reduce corporate tax from **28% to 25%** to help businesses recover and grow.
9. Launch the national talent portal
10. Register 3000 young people through the renewed IMANI program, and the Youth Employment and Business program.
11. Begin to restructure the MNIB and present a five year strategic plan for the creation of guaranteed market for farmers and fishermen
12. Commence the free emergency medical transportation service from Carriacou and Petite Martinique to Grenada.
13. Launch a comprehensive review of the healthcare sector and present a 5 year strategic plan
14. Take immediate action to address any medication shortage
15. Launch National support local campaign
16. Launch a National Cultural Ambassadors Programme to promote Grenada's culture, heritage and creative talent locally and internationally.
17. Launch the National Literacy and numeracy program
18. Launch a Sports Ambassadors Programme to recognise outstanding athletes and use their achievements to inspire young people and promote Grenada on the international stage.
19. Make Carnival and Public Entertainment More Affordable by reducing vendor and promoters' licence fees and lowering VAT on public entertainment tickets to 10%, helping to support the industry and make events more affordable for the public.
20. Set up the first Technology Business Incubator to support digital entrepreneurs, and creators
21. Develop a National Road development and maintenance plan
22. Establish a National Security Council to coordinate a whole-of-government approach.
23. Publish a comprehensive strategic plan addressing crime, border and maritime security, cybersecurity, disaster preparedness, critical infrastructure and emerging national threats.

24. Engage the United States Government to seek the removal or reduction of existing visa restrictions affecting Grenadian nationals.
25. Restore Social Partnership and a Productivity and Innovation Council bringing together government, business, labour, youth, civil society, and faith-based organisations.
26. Commission an audit of major public projects;
27. Activate the National Delivery Unit for priority programmes; and immediately engage development partners.

NNP: BETTER FOR EVERYBODY

1. THE BETTER GRENADA PLAN FOR FAMILIES & COMMUNITIES

Families are the foundation of our nation, and a Better Grenada must be a country where every family has the opportunity to live with dignity, security and hope. We will support families at every stage of life by making it easier to earn a decent living, own a home, raise healthy and well educated children, access essential services and build a secure future. Our commitment is to strengthen families, reduce the pressures that make life harder and ensure that no family is left behind.

- **Remove all taxes including VAT, on electricity, remove VAT on sugar** and other essential items, **and reduce the levy on water.**
- **Help families repair their homes by providing building materials and labour through a grant, or soft loans.**
- **Build climate resilient and lower cost homes for low and middle income families.**
- **Design and build homes through GDB, the Housing Authority and the private sector, with no upfront cost, targeting middle income families and public officers**
- **Build rent-to-own apartments for families and youth.**
- **Complete the distribution of Chinese low income units to those in need.**
- **Review the price of existing low income Chinese** housing and consider a percentage refund to owners subject to available funds.
- Regularise all lands occupied by families and offer a land regularisation amnesty for persons on Government lands with high accumulated interest.
- **Modernise land services with a secure digital land registry for online applications, application tracking and access to land information.**
- **Provide safer and more reliable transport** by partnering with the bus associations to achieve dependable and safe night transportation and exploring all options for a national school bus programme.
- **Launch solar farm projects in specific communities to reduce electricity costs.**

- **Launch a National Parenting Programme supported by a Parenting App** providing practical guidance, child development resources, educational support and professional advice.

- **Expand quality and affordable childcare services by providing government run or government supported childcare services in every constituency.**

- **Support children and working families after school by expanding quality after school services providing supervised learning and homework assistance in every constituency.**

.Free tuition for students attending TAMCC, and NEWLO with transportation, uniform and material assistance for needy students

- **Enhance children's learning by strengthening literacy and numeracy, special needs identification, inclusive classrooms, counselling and after school support, as well as subsistence and school aide support for special needs students who require it.**

- Expand the School Meals Programme** to provide two nutritious meals each school day, breakfast and lunch, for students in need.

- **Bring child health and wellness services into every school** by establishing school based health and wellness services, including annual dental, eye and ear checks.

- **Improve family health by strengthening maternal and child care, community healthcare and protection from unaffordable health costs.**

- **Launch a National Home and Community Gardening Programme** to increase access to healthy local food.

- **Vulnerable households Care Program** providing more targeted assistance to needy families with children in school, especially single mothers, while providing financial support and connecting them to skills training and employment opportunities.

- **Strengthen child protection by strengthening legislation and increasing support for children in State care.** Increase support and provide stronger transition support for young people leaving State care.

- Hold consultation with the private sector to consider **legislation to give fathers 2 weeks Paternity leave.**

- **Protect women from violence and advance gender equality by strengthening laws and programmes** addressing discrimination, harassment and gender based violence, while expanding safe homes, counselling, legal assistance, rehabilitation, survivor recovery and transitional housing linked to mental health support, skills training, employment and affordable housing.
- **Expand the bathroom and toilet programme for needy families.**
- **Strengthen Community Development and expand the Community Development Fund to support** community led projects, resilience and social development in partnership with faith based organisations and community based organisations.
- **Connect every community to reliable high speed internet and expand free public internet access** by providing free public Wi Fi in key public spaces in every constituency.
- **Strengthen consumer protection laws with clear service standards**, fair pricing, stronger regulatory oversight, independent dispute resolution and compensation for prolonged service failures.
- **Improve communities by establishing a major recreational park in every constituency**, including children's play areas, sporting and exercise facilities, while upgrading community centres, playgrounds, public spaces, roads, drainage and street lighting.
- **Promote humane communities and responsible animal care** through modernised animal welfare laws and a national programme for responsible ownership, spay and neuter, shelters, rescue, veterinary access, public education and stronger enforcement against cruelty.

2. THE BETTER GRENADA PLAN FOR SENIOR CITIZENS & PERSONS WITH DISABILITY AND OTHER SPECIAL NEEDS

A Better Grenada must honour those who have built our country and ensure that persons with special needs are treated with dignity, respect and inclusion. We will strengthen the support available to senior citizens and persons with special needs, improve access to healthcare and essential services, expand opportunities for participation and independence, and ensure that families caring for loved ones receive

the support they need. We believe everyone deserves to live with dignity, security and purpose.

- **Senior Citizens Care Package**

We will introduce a dedicated care package to support qualifying elders over 70 years with priority access in public spaces, access free medical services in Government facilities, home aide services, monthly subsistence allowance, and free transportation under special partnership arrangements between Government, private sector and bus association.

- **Create a National Register of Senior Citizens** to maintain an up to date record of senior citizens, including basic personal information and relevant needs, to support better planning, targeted assistance and more efficient delivery of government services.

- **Special Needs Care Package**

We will introduce a dedicated care package for qualifying persons with disabilities and other special needs with priority access in public spaces, free medical services in Government facilities, school aide services, and a monthly subsistence allowance.

- **Increase rights and accessibility** through modernised and enforced disability legislation and universal design standards for new public buildings.
- **Provide Priority Access to Essential Services:** In consultation with key stakeholders, introduce National Senior Citizens and Disability Cards to facilitate priority access to healthcare at Government facilities, government services and other essential services.
- **Provide Inclusive Education for Students with Disabilities and Other Special Needs** through early intervention, appropriate learning support and inclusive classrooms that meet their individual needs.
- **Expand Employment and Independent Living Opportunities for Adults with Disabilities and Other Special Needs** by promoting fair access to employment, skills training and support services that encourage independence and improve quality of life.
- **Improve professional caregiving services** through compulsory caregiver training and certification and a National Register of approved and certified caregivers.

3. THE BETTER GRENADA PLAN FOR YOUNG PEOPLE

Grenada's young people are not simply the leaders of tomorrow; they are citizens with ideas, talents and ambitions that can shape our country today. We will create greater opportunities for education, employment, entrepreneurship, skills development, technology, sports and the creative industries, while ensuring young people have a voice in the decisions that affect their future. Our goal is to give every young person the opportunity to learn, work, build and succeed in Grenada.

- **National Youth Employment and Business Finance Programme**

We will expand employment, entrepreneurship and financing opportunities for young people through job creation, grants, low interest loans to help them find jobs and start businesses and achieve financial independence.

- **Improve and expand the IMANI Programme** by providing structured after school support, paid service and work experience, apprenticeships, job matching and pathways from school or unemployment to sustainable work.
- **Launch a National Talent Portal** to connect job seekers with employers and provide access to employment, training and professional development opportunities. The portal will allow individuals seeking employment to connect with potential employers, while enabling employers to access a pool of skilled and talented individuals from which to recruit.
- **Monetising Talent Programme** by establishing a programme to help creatives transform their talents into sustainable sources of income and viable businesses, while developing the necessary framework to protect their rights, recognise the value of their work and enable them to earn from their creativity and intellectual property.
- **Provide housing and wealth creation opportunities** through youth housing security and a special rent to own programme for young people.
- **Expand digital learning opportunities** through the National Robotics, Coding and Artificial Intelligence Programme in every school, Digital Learning Hubs and mobile labs, and access to devices and connectivity for low income students.
- **Provide more second chance education opportunities** through literacy and numeracy support, technical and vocational pathways, recognised qualifications, flexible lifelong learning, scholarships and second chance completion.
- **Protect young people's mental health and wellbeing** by expanding counselling, mental health services, emotional intelligence education, peer support and referral networks.

- **Improve life skills, mindset and attitude** by expanding and enhancing sporting, cultural and life skills development programmes in every community, in partnership with individuals and organisations.
- **Build safer communities for young people** by strengthening violence prevention, restorative justice, conflict resolution and community mentoring.
- **Give vulnerable young men a pathway back to opportunity** by strengthening the MPower Programme to provide intensive support, training and risk to work or prison to work opportunities for young men facing exclusion or conflict with the law.
- **Develop young talent in sport, arts and culture** by expanding opportunities in sport, sailing, boat building, music, performing arts, culture and the creative industries, with specialised training, coaching, competitions, scholarships, talent development and partnerships with professional organisations.
- **Give young people a formal voice in national affairs** by introducing legislation establishing a National Youth Parliament and National Youth Councils.
- **Increase meaningful youth representation in decision making** by expanding participation in Parliament, statutory bodies, state boards, commissions and other national institutions, with every Cabinet established board or committee having a youth representative.
- **Recognise and reward youth excellence** by expanding the National and parish Youth Awards Programme to honour achievement in every area where youth excel.
- **Create a Special Youth Advisory Council to the Prime Minister** with representation from every constituency.
- **Create a partnership between the Ministry of Youth and faith based organisations** by making funding available for implementation of programmes that foster the spiritual and social development of young people.

4. THE BETTER GRENADA PLAN FOR WORKERS

Workers are the backbone of our economy and deserve to benefit from the value they create. A Better Grenada will support workers with fairer taxation, better opportunities, stronger protections, improved working conditions, skills development and greater financial security. We will create an environment where hard work is respected, productivity is rewarded, and workers can keep more of what they earn while building a better future for themselves and their families.

- **Reduce Income Tax by increasing the personal income tax-free threshold from \$3000 to \$6,000 per month**, creating better-paying jobs and putting more money in the pockets of working people.
- **Reduce the applicable income tax rate from 28% to 25%.**
- **Remove taxes on tips, gratuity for hospitality workers and bonuses.**

- **Review the minimum wage every two years** through consultation with workers, employers and trade unions to promote fair wages and decent working conditions.
- **Hold consultation with the private sector to consider legislation to give fathers 2 weeks Paternity leave.**
- **Create more job opportunities closer to home** by developing parish job plans, providing incentives for rural investment and creating pathways into sustainable work.
- **Provide ongoing training and development through apprenticeships, certification, employer linked TVET, prior learning recognition and career development.**
- **Implement policies and legislation to protect workers.**
- **Regularise public officers consistent with the Constitution of Grenada.**
- **Honour all 1958 Pension obligations consistent with the Constitution and the 1958 Pension Act.**
- **Review the new pension legislation in consultation with the unions to ensure all eligible public officers who were in the system at the time of the court ruling, but were forced to join the new pension scheme, are allowed to benefit from the 1958 pension.**
- **Provide an annual Public Officers Bonus** whenever the Government achieves an overall fiscal surplus, with no income tax applied to the bonus.
- **Implement flexible work arrangements by introducing Public Service flexible work arrangements** for parents with young children, families caring for children with disabilities and other special circumstances.
- **Improve working conditions for public officers** by addressing workplace needs and strengthening the overall working environment across the Public Service.
- **Undertake a review of pay and grades across the Public Service** to ensure that compensation and grading are fair and appropriately aligned with responsibilities.
- **Increase accountability and reward outstanding performance** by establishing a National Delivery Unit within the Cabinet Office to monitor measurable targets, customer service standards and public scorecards.
- **Work closely with trade unions** to address the needs and concerns of all workers in a timely manner.

5. THE BETTER GRENADA PLAN FOR FARMERS AND THE AGRICULTURAL SECTOR

Agriculture is essential to our food security, rural communities and national economy. We will build a stronger and more modern agricultural sector by supporting farmers with access to finance, land, technology, infrastructure, markets, training and reliable services. We will strengthen local production, expand opportunities for value-added agriculture and create an agricultural economy where farmers can produce more, earn more and contribute more to Grenada's food and economic security.

- **Launch a National School Nutrition Programme** guaranteeing two healthy meals per school day, feeding our children in need while creating guaranteed demand for local farmers.
- **Launch a Farm Enterprise Development Programme** targeting high potential crops such as nutmeg, cocoa and cinnamon, with structured offtake agreements, Grenada Development Bank financing and a Farm Worker Support Component.
- **Make Government a regulator and enabler** by facilitating three to five competing firms in production, processing and distribution to drive down costs and improve quality of food.
- **Establish centralised agro processing and value added hubs** alongside modern cold storage and logistics to reduce post harvest losses and stabilise supply and prices.
- **Give farmers the financing, tools and support they need to succeed** by expanding affordable financing, agricultural insurance, modern equipment and mechanisation, quality inputs, continuous training, research, extension and digital support.
- **Provide guaranteed markets** by renewing the MNIB, placing more local food on school plates, in hospitals and other Government institutions, and promoting and incentivising Buy Grenadian First.
- **Expand markets** by increasing regional and international market access, strengthening tourism links and providing greater support for agricultural exports.
- **Provide protection and security services** by using drone technology to reduce praedial larceny while increasing disaster risk support and climate resilience.
- **Establish a Predial Larceny Fund** to compensate farmers for major losses caused by theft.
- **Encourage Grenadians to buy local** by implementing a Buy Grenadian Campaign targeting households, businesses, supermarkets, restaurants and public institutions.
- **Help farmers work together and compete in larger markets** by strengthening farmer organisations, cooperatives and producer associations through technical support, governance training, business development and partnerships that

improve productivity, bargaining power, consistent supply and access to regional and international markets.

- **Protect agricultural lands and bring idle agricultural land back into productive use** by establishing a National Agricultural Land Bank using transparent leasing arrangements and safeguarding valuable agricultural lands from inappropriate development and loss of productive use.
- **Improve the infrastructure farmers need to produce and compete** by upgrading farm roads, irrigation and drainage networks, water storage, collection centres, production facilities and other critical agricultural infrastructure.
- **Modernise agriculture and expand year round production** by launching a National Agriculture Innovation Programme using technology to achieve consistent crop production at affordable prices.
- **Produce more food at lower cost throughout the year** by using innovation and modern production systems to increase output, reduce costs and strengthen food security.
- **Turn organic waste into affordable agricultural inputs for distribution to farmers** by establishing composting and soil improvement facilities using suitable sargassum, debushing material, crop residues and surplus fruit to reduce waste, support farmers and lower dependence on imported fertiliser.
- **Increase support to poultry and livestock farmers** to increase production of meat, milk and eggs and reduce dependence on imports.
- **Restore 4H in all schools and introduce school hydroponics** to give students practical experience in agriculture and modern food production.
- **Bring more young people and women into agriculture** by promoting agriculture as a rewarding career, business and pathway to wealth creation and expanding opportunities for cooperatives, rural enterprises and agricultural entrepreneurs.
- **Set a clear long term direction for agriculture and food security** by developing and implementing a National Agriculture Development Plan and Food and Nutrition Security Strategy that aligns policy, legislation, data, investment and delivery across agriculture and food production.
- **Protect animal health, welfare and food safety** by strengthening animal welfare legislation, disease prevention and food safety systems to improve productivity and national food security.

6. THE BETTER GRENADA PLAN FOR FISHERS

Our fishers are essential to Grenada's food security, coastal communities and blue economy. We will strengthen the fishing sector with better access to finance, modern infrastructure, safety and insurance, stronger markets, technology and support for sustainable fisheries. Our goal is to create a more resilient and profitable fisheries sector that allows fishers and their families to build secure livelihoods while protecting our marine resources for future generations.

- **Provide affordable financing** by providing accessible and affordable financing and grants for boats, engines, fishing gear, safety equipment, refrigeration and other essential inputs.
- **Lower the operating cost of fishing** by increasing targeted fuel relief and duty concessions for registered and compliant fishers.
- **Give fishers a fair and reliable market for their catch** by modernising the fisheries marketing system, strengthening fish marketing cooperatives and supplying schools, hospitals, prisons and other institutions with more fish.
- **Increase agro processing and value added** by providing financial support through MNIB for seafood processing and value added products.
- **Improve safety and security** by strengthening vessel safety, upgrading landing sites, improving Coast Guard coordination and enhancing maritime security, including the use of drones for coastal surveillance where practical.
- **Help fishing communities recover faster from shocks** by strengthening support for fishers and coastal households affected by disasters, emergencies and other disruptions.
- **Support a Fishermen Insurance Fund** for registered fishermen.
- **Support exporters to provide better prices and increase the market for fish exports** through concessions and other arrangements.
- **Give fisherfolk a stronger collective voice** by supporting cooperatives and fisherfolk organisations through governance training, technical assistance, cooperative services, business development support and stronger representation in fisheries management and national decision making.
- **Modernise fishing landing sites** by upgrading every major site with secure facilities, ice plants, cold storage, fuel access, solar energy, sanitation, efficient transport and improved fish handling systems.
- **Protect the marine ecosystems that sustain fishing communities** by restoring reefs, mangroves, seagrass and beaches, protecting marine biodiversity and strengthening action against illegal, unreported and unregulated fishing.
- **Use research and technology to strengthen fisheries** by expanding research partnerships, digital fisheries management, vessel technology, climate resilience and innovation.

- **Attract responsible investment into the blue economy** by building public and private partnerships that modernise fisheries infrastructure, strengthen seafood processing, expand export capacity and create new marine enterprises.

7. THE BETTER GRENADA PLAN FOR BUSINESS OWNERS AND ENTREPRENEURS

Small businesses, entrepreneurs and investors are critical to creating jobs, driving innovation and growing our economy. We will create a more supportive business environment with easier access to finance, simpler regulations, stronger digital services, skills development and greater opportunities to enter local, regional and international markets. We want Grenadians with good ideas and the determination to build businesses to have the opportunity to start, grow, employ others and succeed.

- **Provide financing for new and existing businesses** by establishing through the GDB a National Entrepreneurship and Inclusive Growth Fund providing start up and growth finance, mentoring and support for priority business areas through parish based Business Development Hubs.
- **Reduce corporate tax** from 28% to 25% to help businesses recover and grow.
- **Enhance Grenada's workforce** through apprenticeships, certified training, linking employers to workforce development opportunities and connecting businesses to trained staff through a national employment platform.
- **Provide greater opportunities for creatives** by partnering with podcasters, content creators and other alternative producers and forms of media to provide services across Government.
- **Advance digital growth and the creator economy** by supporting digital entrepreneurs and creators with technical support, training, financing, intellectual property protection, market access and income generating opportunities through monetising their talent.
- **Provide an incentive package for businesses investing heavily in national development, job creation and rural development.**

8. THE BETTER GRENADA PLAN FOR CULTURE, HERITAGE AND THE CREATIVES

Our culture and heritage tell the story of who we are, while our creative people carry Grenada's talent and identity to the world. We will protect and preserve our heritage while creating greater opportunities for artists, musicians, performers, writers, designers, filmmakers and other creatives to develop their talents and earn sustainable incomes. We will build a stronger creative economy that celebrates our identity, creates jobs and positions Grenada's culture as an important national asset.

Set a clear national direction for culture and the creative economy by developing a comprehensive National Creative Economy Strategy supported by an independent National Culture Council.

Coordinate culture, investment and creative industry development by aligning policy, education, heritage preservation, intellectual property, cultural tourism, exports and investment.

Modernise the legal framework for culture and creativity by introducing a National Culture and Creative Economy Act.

Make culture a major pillar of national development by positioning the sector as a source of identity, jobs, enterprise and economic growth.

Connect creatives to national opportunities by creating a National Artists and Creative Practitioners Registry linking artists and practitioners to training, commissions, grants, financing, markets, social protection, national projects and professional opportunities.

Use public investment to support Grenadian creativity and expand high growth creative industries by supporting film, animation, gaming, publishing, fashion, craft, culinary arts and other emerging sectors, while increasing Government procurement of Grenadian art, music, literature, film, fashion, design, craft and cultural products.

Create reliable financing for artists and creative businesses by establishing a permanent National Cultural Fund providing transparent grants, scholarships, low interest financing and business support.

Protect intellectual property and creative earnings by strengthening copyright and intellectual property laws, education and licensing systems.

Improve royalty collection by expanding digital systems that help creatives receive income from their work.

Monetising Talent Programme by establishing a programme to help creatives transform their talents into sustainable sources of income and viable businesses, while

developing the necessary framework to protect their rights, recognise the value of their work and enable them to earn from their creativity and intellectual property.

Expand access to technology and production by establishing a Creative Technology Hub in every parish and providing accessible rehearsal, recording, production, exhibition and performance spaces.

Use cultural leaders to inspire the next generation by engaging ambassadors in schools in youth programmes, tourism and national programs, while pairing experienced culture bearers and creative professionals with emerging artists.

Recognise excellence across the creative sector by establishing annual National Arts and Culture Awards.

Put culture and creativity at the heart of education by integrating arts, heritage, music, theatre, creative entrepreneurship and technology throughout schools, youth programmes and lifelong learning.

Promote year round cultural activity by establishing a National Cultural Calendar that strengthens local traditions and participation, encouraging Community Cultural Development Plans and supporting parish festivals, village traditions.

Recognise outstanding Grenadian cultural practitioners by appointing accomplished artists, musicians, writers, performers, craftsmen, storytellers and other practitioners as Cultural Ambassadors.

Preserve Grenada's cultural memory by documenting, digitising and safeguarding oral histories, music, dance, folklore, language, traditional and indigenous knowledge, crafts, architecture, historic sites, archives and the knowledge of culture bearers.

Create a year round national academy for the creative industries by providing professional training in music, mas, dance, theatre, costume design, technical production, event and festival management, film, animation, fashion, culinary arts, digital media, cultural entrepreneurship and creative business management.

Take Grenadian creativity to the world by implementing a National Cultural Export Strategy and opening gateways to regional and international markets through digital platforms, tourism connections, exports and diaspora and international partnerships.

Reduce Carnival Fees to support Vendors by reviewing and lowering the fees charged to vendors to make participation more affordable and support small businesses during the Carnival season.

Make Carnival Promoters' Licence Fees Fairer and More Affordable by reviewing the fee structure to ensure that charges are reasonable, transparent and proportionate to the scale of events.

Reduce VAT on Public Entertainment Tickets to 10% by lowering the VAT rate on ticket sales for public entertainment events, providing relief for event promoters and helping to make entertainment more affordable.

9. THE BETTER GRENADA PLAN FOR BUILDING A TOURISM ECONOMY

Tourism must create opportunities across Grenada and deliver greater benefits to our people, communities and businesses. We will build a tourism economy that values Grenadian ownership, supports local producers and entrepreneurs, creates quality jobs, protects our natural and cultural assets and expands opportunities beyond traditional tourism centres. Our goal is a more inclusive, sustainable and resilient tourism sector in which more Grenadians can participate and prosper.

- **Create more opportunities for Grenadians to own and invest in tourism** by establishing a one stop National Tourism Investment Programme to encourage Grenadian ownership, fast track strategic projects, expand employment and strengthen partnerships among Government, communities and the private sector.
- **Help Grenadians develop and expand tourism accommodation** by providing financing, technical assistance and incentives to develop and upgrade guesthouses, villas, eco lodges and Airbnb accommodations, particularly in rural communities.
- **Broaden participation in tourism investment** by expanding room stock, villa cooperatives, community tourism and diaspora investment opportunities through financing and technical support.
- **Ensure more tourism wealth reaches local businesses** by increasing participation by farmers, fishers, craft producers, entertainers, transport providers

and small businesses through incentives for businesses that utilise local supplies.

- **Make Grenada a leading culinary destination** by launching a Buy Grenadian Tourism and Global Table Programme featuring restaurant and signature products and experiences.
- **Connect local producers directly to tourism markets** by providing financing through the Grenada Development Bank to increase market opportunities for farmers, fishers, agro processors, creatives and craft producers.
- **Increase local purchasing across the tourism industry** by introducing income tax incentives encouraging hotels and restaurants to buy more local food, beverages, furniture, artwork, entertainment and other goods and services, reducing imports and keeping more tourism revenue in Grenada.
- **Build a highly skilled tourism workforce** by establishing a Hospitality Workforce Programme through TAMCC and industry partners.
- **Ensure workers receive a fairer share of tips** by passing legislation so that 100% of tips is paid directly to employees in the hospitality sector and no personal income taxes are charged on it.
- **Raise standards across the tourism industry** by strengthening licensing, inspections, customer service, quality assurance, professional certification and career progression.
- **Develop tourism opportunities in every constituency** through financial and technical support from the Grenada Development Bank to develop heritage attractions, eco tourism, village tourism and year round festivals.
- **Provide safer transportation for tourism workers** by introducing a Tourism Workers Transportation Programme providing reliable transport home for late shift employees.
- **Strengthen Grenada's Cultural Festivals** by enhancing Grenada's Carnival as a premier cultural festival in the Caribbean and elevating festivals like Rainbow City and Emancipation Day celebrations into truly national cultural experiences that showcase our heritage, traditions and identity.
- **Diversify Grenada's tourism markets and products** through the Grenada Tourism Authority by monitoring and developing new geographic markets and a more varied and resilient tourism offering to increase visitor arrivals.
- **Protect the natural assets on which tourism depends** by strengthening beach, reef, mangrove and coastal protection.
- **Help tourism businesses lower costs and become greener** by supporting hotels, guesthouses, villas and other tourism businesses to invest in solar energy, energy efficient technologies and sustainable practices that reduce operating costs and improve competitiveness.

10. THE BETTER GRENADA PLAN STUDENTS AND FOR A MODERN, INCLUSIVE HIGH PERFORMING EDUCATION SYSTEM

Every child and every learner deserves access to an education system that prepares them not only to pass examinations, but to succeed in a changing world. We will build a modern, inclusive and high-performing education system that strengthens literacy and numeracy, expands technical and vocational education, embraces science, technology, coding, robotics and artificial intelligence, supports teachers and creates opportunities for every learner to reach their potential. Education must open doors, develop character and equip our people for the future.

- **Make literacy and numeracy a national priority** by launching a National Literacy, Numeracy and Learning Recovery Mission to ensure every child masters core reading, writing and mathematics standards before leaving primary school.
- **Identify learning difficulties early** by using early screening and targeted teaching to provide support before children fall further behind.
- **Provide targeted learning support and track learning progress** by establishing learning clinics in every district for students who need additional help.
- **Continue Free Tuition at TAMCC and NEWLO** and provide additional assistance with transportation, uniforms and learning materials for students from families in need.
- **Expand practical skills training for the jobs Grenada needs** by developing technical and vocational education through centres of excellence and academies in hospitality, agriculture technology, electrical installation, construction technology, engineering, digital technology, ICT/cybersecurity, AI-enabled services, hospitality management, financial services, and skilled trades, renewable energy, nursing and allied health and other priority sectors.
- **Recognise skills people already have** by expanding Recognition of Prior Learning so experienced workers can gain formal qualifications.
- **Create clear pathways from learning to employment opportunities** by connecting school and training directly to employment, further education and enterprise.
- **Give adults and returning learners a second chance** by expanding adult literacy, numeracy and digital learning, online education and community learning centres in every constituency.
- **Expand access to scholarships and higher education aligned with development needs** by increasing scholarships, student financial support, low interest loans, exchanges and partnerships with regional and international institutions.

- **Modernise the national curriculum for the future** by strengthening science, technology, engineering, arts and mathematics and ensuring every child learns a foreign language.
- **Make history compulsory in all schools** by making Grenadian history a compulsory subject in all schools.
- **Prepare students for the digital economy** by introducing coding, robotics, responsible artificial intelligence and digital technology.
- **Teach students how to manage money and create opportunities** by strengthening financial literacy and entrepreneurship.
- **Build practical and future ready skills** by expanding environmental education, creativity, critical thinking, communication and practical life skills.
- **Strengthen values, citizenship and national identity** by expanding values based education, civic responsibility and Grenadian history and culture.
- **Build safer, smarter and better schools** by upgrading schools with perimeter fencing, CCTV, improved security, modern classrooms, reliable internet, devices and smart technology.
- **Create better learning and working environments** by providing accessible learning spaces, improved staff rooms, climate resilient infrastructure and stronger maintenance systems.
- **Expand the School Meals Programme** to provide two nutritious meals each school day, breakfast and lunch, for students in need.
- **Develop talent, character and future leaders** by establishing a National Sports Academy, National Music and Performing Arts Academy and Future Leaders Academy.
- **Make extracurricular development part of every child's education** by ensuring every student participates in at least one structured extracurricular activity each year.
- **Build confidence and positive role models** by strengthening mentorship, positive role models and personal development programmes for boys and girls.
- **Prepare teachers properly before they enter the classroom** by institutionalising pre service teacher education.
- **Keep teachers learning throughout their careers** by institutionalising continuous in service professional development, including scholarships for specialised training.
- **Develop stronger education leaders** by expanding leadership development and recognition for excellence.
- **Bring more men into the teaching profession** by recruiting and retaining more male teachers.
- **Pay new teachers on time** by ensuring new teachers are paid from their first month on the job.

- **Deliver Education Grenada 2030** by implementing an Education Grenada 2030 Delivery Plan with clear national standards, curriculum renewal, measurable outcomes and reliable education data.
- **Strengthen school leadership and accountability** by improving School Management Boards, leadership training, school inspection and accountability.
- **Bring education services closer to communities** by establishing Education Service Desks in every district.
- **Use better data to improve education outcomes** by implementing a modern Education Management Information System to strengthen planning, delivery and student performance.
- **Build stronger partnerships for better schools** by introducing an Adopt a School Programme with incentives for businesses, alumni, communities and the diaspora to support school infrastructure, libraries, digital learning centres, technology, mentorship, literacy and extracurricular activities.
- **Expand Access to Modern Libraries** through partnerships with the private sector to establish a library in every school and develop a modern, well equipped public library in every parish, providing students and communities with greater access to books, digital resources, research facilities and lifelong learning opportunities.
- **Connect schools more closely with families, employers and higher education** by deepening partnerships with parents, employers and tertiary institutions.
- **Strengthen transitions through the education system** by improving progression from primary to secondary school and from school into further education, work or enterprise.
- **Use the experience of retired professionals to strengthen education** by establishing a Retired Professionals Support Programme enabling experienced professionals to contribute through tutoring, teacher coaching, mentorship, career guidance and targeted learning support.
- **Build more inclusive classrooms** by expanding specialised support for children with special needs and their families and introducing sign language in primary schools.
- **Strengthen counselling and emotional support in schools** by expanding school counselling, social emotional learning and targeted intervention for students at risk of falling behind.
- **Give every child a healthy start** by expanding quality early childhood education, nutrition, parent support, early stimulation, school readiness programmes and quality standards.
- **Prepare every student for the digital future** by introducing robotics, coding, responsible artificial intelligence and digital skills in every primary and secondary

school through modern technology laboratories, trained teachers, innovation clubs, annual national competitions, industry recognised certifications and greater access to devices and connectivity for low income students.

- **Bring digital learning and technology closer to every home** by establishing fully equipped Digital Learning Hubs in every constituency, supported by mobile digital labs for remote areas, providing devices, high speed internet and training in digital literacy, coding, AI, digital marketing, online entrepreneurship and other technology skills for everyone.
- **Deliver learning and public information 24 hours a day** by establishing a dedicated National Education and Information Network and digital platform providing student learning, CXC and CAPE revision, adult education, civic and constitutional education, health and wellness, agriculture, entrepreneurship, disaster preparedness, government information and programmes promoting Grenadian history, culture and national development.

11. THE BETTER GRENADA PLAN TO BUILD A MODERN PEOPLE CENTRED HEALTH CARE SYSTEM

Healthcare must be accessible, affordable, timely and centred on the needs of people. We will strengthen the health system from primary care to specialist services, expand access across every parish, modernise facilities and technology, invest in healthcare workers and improve emergency and preventative care. Our vision is a modern, resilient healthcare system that treats people with dignity and ensures that where you live or what you earn does not determine the quality of healthcare you receive.

- **Use health data to guide better care** by using national disease, mortality and community health data to drive a major renewal of primary healthcare.
- **Bring stronger health facilities closer to every parish** by strengthening community clinics, mobile and home healthcare, chronic disease management and outreach services and establishing a polyclinic or hospital in every parish.
- **Make healthcare services available for 24 hours in every parish** and ensure that health facilities have the staff, equipment, medicines and other resources they need to deliver quality care.
- **Expand dental, eye and specialist healthcare** by extending services through full day clinics, mobile outreach, longer hours and stronger provider partnerships.
- **Bring more specialised care to Grenada** by developing centres of excellence so more Grenadians can receive high demand and specialist services at home.
- **Make medicines more affordable and reliable** by strengthening inventory systems, regional bulk purchasing and procurement to lower costs and prevent stockouts and expanding Mobile Pharmacy Services.

- **Expand rehabilitation and disability services** by establishing a National Limb and Rehabilitation Programme.
- **Provide stronger rehabilitation support** by expanding physiotherapy, occupational therapy, speech therapy, prosthetic services and healthcare support for persons living with disabilities.
- **Build a stronger health workforce** by recruiting and retaining more doctors, nurses and allied health professionals and providing more attractive opportunities for healthcare professionals.
- **Set clear limits on how long patients should wait** by introducing national maximum waiting time standards for emergency care, specialist appointments, diagnostic testing and elective procedures.
- **Make healthcare performance transparent** by publishing regular reports on waiting times and service delivery.
- **Invest in the skills and development of healthcare professionals** by expanding scholarships and specialist training, improving working conditions and strengthening leadership development.
- **Protect the wellbeing of healthcare workers** by conducting an urgent workforce morale and burnout review and introducing measures to support staff wellbeing.
- **Use the experience of retired health professionals** by establishing a Retired Health Professionals Support Programme for mentoring, training, specialist support and service delivery.
- **Build stronger healthcare partnerships** by working with private providers, universities, regional institutions and international organisations to improve specialist services, emergency care, medical training, research, innovation and access to modern technology.
- **Strengthen hospital accountability and quality** by improving governance, quality standards, patient satisfaction monitoring and transparent public reporting.
- **Create secure Electronic Health Records** by connecting patient information across the health system to improve continuity of care.
- **Make appointments easier to access** by expanding online appointment systems.
- **Bring doctors closer through digital care** by expanding telemedicine and online doctor consultations.
- **Track referrals more effectively** by strengthening digital referral systems so patients move more efficiently between community, hospital and specialist care.
- **Use connected health data to improve services** by strengthening access, efficiency and continuity across the healthcare system.

- **Reduce delays through secure digital systems** by improving coordination among healthcare facilities, professionals and services.
- **Expand access to modern diagnostic services** by increasing the availability of MRI, CT scans, mammography, ultrasound, dialysis and modern laboratory services.
- **Make essential diagnostics available around the clock** by establishing 24 hour diagnostic services in every parish.
- **Strengthen disease surveillance and quality assurance** by improving public health monitoring and the reliability of diagnostic services.
- **Increase ambulance coverage and strengthen emergency medical response** by increasing the number and availability of emergency medical technicians and improving access to emergency transport throughout Grenada, Carriacou and Petite Martinique.
- **Protect families from unaffordable healthcare costs** by implementing National Health Insurance and strengthening a health system that serves every Grenadian.
- **Promote health throughout every stage of life** by expanding preventive care from pregnancy through healthy ageing.
- **Strengthen maternal and child healthcare** by improving services that protect mothers, babies and children.
- **Protect communities through stronger vaccination programmes** by expanding access, coverage and public health support.
- **Strengthen mental health and addiction services** by expanding community mental health care, counselling, addiction treatment, crisis intervention, school based support, emotional wellbeing programmes and holistic therapeutic networks.
- **Prevent illness before it becomes more serious** by expanding screening, vaccination, physical activity and health education programmes and strengthening early intervention for non communicable diseases.

12. THE BETTER GRENADA PLAN FOR SPORTS MEN AND WOMEN

Sport is more than competition; it develops discipline, confidence, health, opportunity and national pride. We will create a stronger pathway from grassroots participation to elite performance, investing in facilities, equipment, coaching, sports science, athlete development, scholarships and opportunities for careers in sport. We will ensure that girls and boys, women and men, persons with disabilities and athletes across all

disciplines have opportunities to participate, develop their talents and represent Grenada with pride.

- **Develop and implement a 10 year National Sports Development Plan** supported by dedicated leadership and all key stakeholders.
- **Strengthen partnerships and investment** in sport by expanding collaboration with sponsors, the private sector and the diaspora.
- **Upgrade sporting facilities across Grenada** by auditing, improving and maintaining community playing fields, courts, swimming pools, indoor facilities and national sporting venues.
- **Help schools, clubs and communities** access sporting equipment by introducing a Sports Equipment Grant Programme.
- **Make sport more inclusive** by expanding opportunities for girls, women, persons with disabilities, senior citizens and underserved communities through accessible facilities and programmes.
- **Support emerging and non-traditional sports** by investing in sailing, cycling, combat sports, adaptive sport, e sports, recreation and other growing disciplines.
- **Teach every child to swim by launching a National Swim Grenada Programme** covering swimming, water safety and lifesaving skills.
- **Make active living a national priority** by launching the Active Grenada Initiative through community recreation programmes, wellness campaigns and national fitness initiatives.
- **Use sport to improve national health** by encouraging lifelong physical activity to help combat obesity, diabetes, hypertension and other non communicable diseases.
- **Create a clear pathway from grassroots to elite competition** by connecting school and community sport to parish leagues, national academies, elite programmes, national teams and international competition.
- **Identify sporting talent early** by establishing a National Talent Identification Programme to discover gifted athletes in schools and communities and give athletes opportunities regardless of background or location.
- **Create regular opportunities to compete and develop** by expanding structured school and parish sporting calendars.
- **Connect young athletes with Grenada's sporting legends** by launching a National Sports Ambassador and Mentorship Programme engaging elite athletes and diaspora professionals.
- **Use mentorship to build character and excellence** by promoting discipline, leadership, patriotism and high performance while strengthening sponsorship and athlete retention.

- **Celebrate and preserve Grenada's sporting history** by establishing a National Hall of Sporting Excellence.
- **Use technology to improve sporting performance** by investing in artificial intelligence, performance analytics, wearable technology, video analysis, athlete monitoring and digital coaching.
- **Create a national digital sports system** by establishing a National Digital Sports Platform registering athletes, coaches, officials, facilities, competitions, rankings, qualifications and performance data.
- **Use research to improve sport** by expanding sports science research, injury prevention and evidence based policymaking.
- **Build a world class high performance training centre** providing elite coaching, sports science, rehabilitation, athlete monitoring and international standard training facilities.
- **Make Grenada a premier sports tourism destination** by attracting international championships, training camps, marathons, cycling events, sailing regattas, beach games, conferences and other major sporting events.
- **Turn sport into economic opportunity** by packaging sporting events with hospitality, culture and entertainment to generate jobs and business activity.
- **Give more athletes access to education** through sport by significantly increasing sports scholarships and educational assistance.
- **Create more careers within the sports industry** by developing pathways in coaching, officiating, administration, sports science, medicine, media, technology, entrepreneurship and facility management.
- **Prepare athletes for life after competition** by providing financial literacy, career counselling, entrepreneurship and employment support for transitioning and retired athletes.
- **Develop highly qualified coaches, officials and sports professionals** by expanding certification, continuous professional development, international exchanges and leadership opportunities for coaches, referees, administrators and technical officials.
- **Recognise excellence behind sporting success** by honouring outstanding coaches and officials.
- **Strengthen clubs and national sporting associations** by improving governance, finance, planning and compliance support.
- **Provide comprehensive support for national athletes** by establishing a National Athlete Support Programme offering training grants, equipment, travel assistance, education support, certified coaching and athlete medical insurance.
- **Strengthen athlete health and wellness** by expanding sports medicine, physiotherapy, rehabilitation, nutrition, psychology, injury prevention, mental health and welfare services.

- **Protect children and young athletes** by establishing strong child safeguarding standards.

13. THE BETTER GRENADA PLAN TO IMPROVE INFRASTRUCTURE, TRANSPORT AND UTILITIES

Modern infrastructure is the foundation on which a productive and resilient country is built. We will invest in safer roads, reliable transportation, modern towns, ports and airports, stronger water and sanitation systems, resilient digital infrastructure and improved public facilities across Grenada, Carriacou and Petite Martinique. Our approach will focus on infrastructure that connects communities, supports economic activity, improves quality of life and prepares Grenada for the future.

- **Improve traffic between Grand Anse and St. George's** through the Grand Anse to St. George's Traffic Improvement Programme.
- **Improve access to farms and rural communities** with expanded farm and rural access roads.
- **Make roads safer for motorists and pedestrians** through upgraded road markings, signage, traffic calming measures, retaining walls and intelligent traffic management systems, alongside national sidewalk, pedestrian crossing and community walkway programmes.
- **Improve the road network** across Grenada, with greater emphasis on connections from the south of the island to the eastern and western corridors.
- **Reduce flooding and landslide risks** through upgraded drains, culverts and flood control infrastructure.
- **Implement the Greater Grenville Project** to address persistent flooding, improve drainage and flood protection, and modernise the town's infrastructure, public spaces and facilities to create a safer, more resilient and vibrant commercial centre.
- **Strengthen infrastructure delivery and maintenance** with stronger PSIP governance, planning, procurement and monitoring, alongside lifecycle inspections and preventative maintenance to protect public assets and improve communities.
- **Modernise bus terminals and shelters** with improved comfort, safety and accessibility for passengers.
- **Make public transportation safe, affordable and more accessible** through improved services and facilities for senior citizens and persons with disabilities,

while expanding reliable transport for students across Grenada, Carriacou and Petite Martinique in collaboration with the National Bus Association.

- **Use technology to make public transport easier to use** through digital scheduling and passenger information systems.
- **Connect workplaces, communities and transport hubs at night** through stronger mobility for people who work and travel outside normal daytime hours, supported through a special partnership with the National Bus Association.
- **Expand access to reliable potable water** through increased water supply, stronger water storage and distribution, and improved resilience and reliability across the national water system.
- **Modernise Grenada's energy infrastructure** with an upgraded electricity grid and expanded renewable energy infrastructure.
- **Connect every community to modern digital infrastructure** through affordable high speed broadband and resilient fibre connectivity across Grenada, Carriacou and Petite Martinique.
- **Expand fibre optic networks and public Wi Fi** to improve digital access for communities, businesses and public services.
- **Strengthen water, sewage and sanitation infrastructure** through expanded potable water, sewage and sanitation systems.
- **Build green and smart infrastructure** through the development of a national electric vehicle charging network.
- **Use smart infrastructure to improve public services** with expanded digital government supporting education, healthcare, business and community safety.
- **Build infrastructure to stronger climate standards** through renewable energy, sustainable construction materials and stronger building standards.
- **Protect vulnerable coastal infrastructure** through expanded coastal protection, sea defences and climate adaptation projects that strengthen food security, rural production and community resilience.
- **Modernise Grenada's ports and harbours** with upgraded ports, harbours and ferry facilities.
- **Upgrade essential public facilities** through the modernisation of hospitals, health centres, schools, sporting facilities, community centres and emergency shelters.
- **Make public buildings safer and more resilient** while ensuring facilities are accessible, efficient, climate resilient and built to accommodate persons with disabilities.
- **Modernise airports** with upgraded airport facilities in Grenada, Carriacou and Petite Martinique to improve passenger experience, safety, security and operational efficiency.

- **Strengthen inter island ferry services** through modernised ferry terminals and more dependable movement between the islands.
- **Expand cargo handling capacity** with stronger freight and logistics systems.
- **Invest in stronger maritime infrastructure** to support tourism, fisheries, freight and dependable inter island connectivity.
- **Modernise public markets and commercial facilities** through upgraded markets, vending facilities, abattoirs and community commercial spaces that improve sanitation, food safety, accessibility and business opportunities.
- **Improve public cemeteries** through stronger maintenance, expansion and management.
- **Upgrade community facilities** with improved community centres, public conveniences, recreational spaces and other neighbourhood amenities.
- **Strengthen Grenada's construction industry** through improved contractor licensing and certification, technical skills, workplace safety and quality assurance.
- **Use Public Private Partnerships only where they deliver clear public value** with requirements for value for money, appropriate risk allocation, maintenance obligations and long term public benefit.

14. THE BETTER GRENADA PLAN FOR ENERGY SECURITY, NATURAL RESOURCES, CLIMATE RESILIENCE AND ENVIRONMENTAL PROTECTION

Grenada must become more energy secure, climate resilient and environmentally sustainable while creating new economic opportunities for our people. We will accelerate the transition to renewable energy, improve energy efficiency, strengthen disaster resilience, protect our natural environment and invest in the green economy. We will protect the resources that sustain our communities while building a country that is better prepared for climate change and future emergencies.

- **Develop Community Solar Farms** to provide affordable, renewable electricity to households and help reduce electricity costs for families.

- **Solarise 100% of Government Buildings** and redirect the savings into education, healthcare and social programmes.
- **Make communities energy producers, not only consumers** through community solar grids, roof and land lease programmes, smart meters, feed in tariff and net metering reform.
- **Mobilise diaspora investment for a greener Grenada** through Diaspora Green Investment Bonds that convert diaspora wealth into national energy and resilience assets.
- **Build 24 hour energy resilience** with battery storage for hospitals, schools and emergency services, alongside geothermal development for baseload.
- **Help households and small businesses produce more of their own energy and lower energy costs** through affordable blended financing and incentives that reduce electricity costs and expand renewable energy adoption.
- **Allow citizens and businesses to generate and sell electricity fairly** through fair net metering policies for households, businesses and communities.
- **Keep essential services operating during emergencies** with stronger energy continuity during disasters and national emergencies.
- **Promote greener and more efficient buildings** through stronger energy efficiency and green building standards.
- **Encourage energy efficient products and sustainable construction** through efficient appliances, renewable energy and sustainable building materials.
- **Build the workforce for the green economy** through expanded training and certification in renewable energy, energy efficiency and sustainable construction.
- **Strengthen infrastructure delivery and maintenance** through stronger PSIP governance, planning, procurement and monitoring, while protecting public assets with lifecycle inspections and preventative maintenance and improving communities through recreational parks, upgraded public spaces, roads, drainage and street lighting, expanded tree planting, beautification and clean up programmes.
- **Create a renewable energy resilience centre in every parish** equipped with reliable backup power to support communities during emergencies.
- **Strengthen community preparedness and response for disasters** by preparing communities before disasters occur, using resilience centres as focal points for disaster readiness and recovery, and improving systems and facilities used during disasters.
- **Upgrade national early warning systems** to improve the country's ability to alert communities before hazards strike.

- **Improve hazard mapping** using better information to identify and manage areas of risk.
- **Restore Grenada's natural environment** through a National Environmental Restoration Programme protecting forests, watersheds, rivers, wetlands, coral reefs, mangroves, seagrass beds, beaches and vulnerable coastal ecosystems across Grenada, Carriacou and Petite Martinique.
- **Protect Grenada's biodiversity and wildlife** through stronger conservation of native species and ecosystems.
- **Protect public access to beaches** while guaranteeing responsible access and preserving sensitive coastal ecosystems.
- **Restore degraded landscapes and modernise waste management** through the rehabilitation of damaged ecosystems, reduced waste and expanded recycling, composting and resource recovery.
- **Turn waste and environmental innovation into economic opportunity** by supporting circular economy businesses that reduce pollution, improve communities and create jobs.
- **Protect Grenada's water resources** by safeguarding water catchments and watersheds.
- **Strengthen household and national water security** through expanded rainwater harvesting and water storage.
- **Prepare for drought and changing rainfall patterns** through stronger drought resilience and integrated water resource management.
- **Modernise sewerage and wastewater infrastructure** through expanded treatment systems that improve public health, reduce marine pollution and support sustainable tourism and development.
- **Build a cleaner Grenada** through modernised waste collection, improved recycling, better waste facilities, cleaner public spaces and technology to improve service delivery and accountability.

Accelerate Oil and Gas Exploration and Production by putting the sector back on course, with strong environmental safeguards and a focus on delivering economic benefits to the people of Grenada.

15. THE BETTER GRENADA PLAN FOR NATIONAL SECURITY, JUSTICE AND PUBLIC SAFETY

Every person deserves to feel safe in their home, community, workplace and on our roads. We will strengthen national security, modernise policing and emergency services, improve the justice system, protect our borders and waters, prevent crime and support safer communities. Our approach will combine effective enforcement with prevention,

rehabilitation, technology and stronger community partnerships to protect lives, property and the rule of law.

- **Create stronger national security leadership** through a permanent National Security Council to coordinate a whole-of-government approach.
- **Set a clear national security strategy** through a comprehensive strategic plan addressing crime, border and maritime security, cybersecurity, disaster preparedness, critical infrastructure and emerging national threats.
- **Strengthen Police Welfare and Professional Development** by partnering with the private sector to establish a Police Health and Wellness Centre, improve housing and working conditions, provide reliable vehicles and operational resources, and expand scholarships and specialised training.
- **Recognise and Reward Excellence in Policing** through performance based incentives that acknowledge outstanding service, dedication and professionalism.
- **Ensure Fair and Transparent Police Promotions and Postings** through clear, objective criteria that give due consideration to experience, qualifications and performance.
- **Protect Officers Injured or Killed in the Line of Duty** by establishing a clearly defined benefits package that provides financial and other support to seriously injured officers and the families of officers who lose their lives in service.
- **Modernise emergency, fire and rescue services** with upgraded emergency management systems, fire stations, vehicles, specialised rescue equipment, communications and marine firefighting capabilities.
- **Build emergency response capacity in every constituency** through trained and equipped Community Emergency Response Teams, improved search and rescue, disaster preparedness and fire prevention education.
- **Put intelligence and data at the centre of community policing** through expanded intelligence and data led policing to prevent and respond to crime more effectively.
- **Prevent violence by supporting communities and people at risk** through stronger neighbourhood partnerships, youth diversion, violence interrupters, mentoring and coordinated social interventions.
- **Make schools safer** through expanded anti bullying, anti drug and conflict resolution programmes.
- **Use smart technology to fight crime** through expanded CCTV, crime mapping, forensic technology, digital evidence, licence plate recognition and data analytics to target hotspots, improve investigations and deploy resources effectively while protecting privacy and civil liberties.
- **Tackle organised crime, gangs and violent crime** through stronger laws, enforcement, prevention, intervention and rehabilitation to combat trafficking, illicit firearms, illegal drugs and criminal networks.

- **Make Grenada's roads safer** through modernised traffic enforcement and road policing, stronger road safety education, and technology and data to reduce dangerous behaviour, injuries and fatalities.
- **Protect Grenada's borders and waters** through improved border protection, fisheries enforcement, search and rescue and maritime security, alongside investment in modern vessels, radar, drones, surveillance, communications and integrated intelligence systems.
- **Modernise immigration and border management** through biometric technology, advanced screening and integrated border management systems.
- **Strengthen regional and international security cooperation** through deeper partnerships with CARICOM, the RSS and international security agencies.
- **Strengthen financial crime prevention and asset recovery** through an enhanced FIU, stronger anti money laundering and counter terrorism financing systems, while protecting Grenada's correspondent banking relationships and international financial access.

16. THE BETTER GRENADA PLAN FOR CARRIACOU AND PETITE MARTINIQUE RESIDENTS

Carriacou and Petite Martinique are an integral part of Grenada, and residents deserve equal access to opportunity, essential services and national development. We will continue the recovery and invest in stronger healthcare, education, housing, infrastructure, energy, water, transportation, digital connectivity, economic opportunity and climate resilience. Our commitment is to build resilient sister islands where people can live, work, raise families and prosper without having to leave home to access basic opportunities and services.

- **Provide Free Emergency Medical Transportation Services (MedeEvac)** with free air or sea transportation for patients from Carriacou and Petite Martinique to Grenada.
- **Strengthen resilient healthcare** through expanded primary healthcare, emergency response, telemedicine and specialist services, including dialysis and diagnostic care, while ensuring health facilities and essential services continue operating during disasters.
- **Complete the recovery process** by completing the construction of homes, schools, health facilities, shelters, roads, utilities and public buildings, built or modernised to stronger standards.
- **Improve the supply of energy and water** through solar farms, expanded rainwater harvesting, improved desalination and modern water distribution systems with free connection.
- **Connect the sister islands digitally** through expanded broadband, digital government, telehealth, remote learning and business connectivity.
- **Build Community Resilience Hubs** with multi purpose facilities equipped with renewable and backup power, emergency communications, water, essential supplies, medical response capacity, shelters and disaster response equipment.
- **Modernise waste and environmental management** through improved waste collection, recycling, composting, wastewater treatment and responsible disposal systems suited to small island conditions.
- **Improve air and sea transport and services** through the modernisation of Lauriston Airport and the rebuilding of the ferry terminal.
- **Strengthen tertiary education and skills** with a modern tertiary facility and enhanced digital learning, marine and vocational training.
- **Establish a Special Needs Centre in Carriacou** to provide accessible education, therapy, skills development, support services and opportunities for persons with special needs and their families.
- **Strengthen blue island resilience** through the protection of reefs, mangroves, beaches, forests and watersheds, alongside sustainable fisheries, aquaculture and nature tourism.
- **Provide incentives for diaspora and private investment** through carefully structured diaspora investment and responsible public private partnerships.

17. THE BETTER GRENADA PLAN FOR THE DIASPORA AND FOREIGN AFFAIRS

Grenada's relationship with the world must serve the national interest while strengthening the bonds between Grenada and Grenadians wherever they live. We will deepen strategic diplomatic relationships, strengthen our international partnerships, expand opportunities for trade and investment and create better ways for the diaspora

to contribute their skills, experience, resources and connections to national development. We will ensure that Grenada has a confident, strategic and effective voice internationally while keeping our people and national interests at the centre of our foreign policy.

- **Strengthen strategic diplomacy and bilateral engagement** through a proactive and strategic approach to diplomacy, with continuous and deliberate engagement with key partners, particularly the United States, CARICOM and international development institutions.
- **Strengthen diplomatic missions** by repositioning embassies and diplomatic missions as strategic hubs for trade and investment promotion, policy intelligence and reporting, and diaspora engagement, with performance metrics established to ensure measurable outcomes.
- **Strengthen regional and multilateral cooperation** through a stronger role for Grenada within CARICOM and other regional bodies to advocate collectively on trade and security matters, coordinate responses to external economic pressures and leverage regional bargaining power.
- **Enhance economic diplomacy** through a stronger foreign policy that supports economic development, investment attraction strategies, market access for Grenadian goods and services, and strategic partnerships in areas such as energy, agriculture and technology.
- **Balance sovereignty and strategic interests** while safeguarding national sovereignty through pragmatic engagement with global partners and ensuring that decisions balance the national interest with economic realities and protect citizens from unintended consequences.
- **Set up a Diaspora Unit to provide better services to Grenadians in the diaspora** who are returning home or interested in investing and supporting national development through their experience, skills and talent.
- **Provide incentives for Grenadians in the diaspora** who wish to invest in Grenada and contribute to national development.
- **Lobby the Government of the United States to have the Visa Bond removed** through sustained diplomatic engagement focused on removing the measure and strengthening travel opportunities for Grenadians.

18. THE BETTER GRENADA PLAN FOR GOOD GOVERNANCE, GOVERNMENT TRANSFORMATION

The government must work for the people, deliver value for money and be accountable for the results it achieves. We will transform the way the government works by modernising public services, strengthening accountability and transparency, reducing

unnecessary bureaucracy, embracing digital technology, improving efficiency and putting citizens at the centre of government. Our goal is a government that is more responsive, accessible, professional and effective, where public resources are managed responsibly and every citizen can see how government decisions and investments are delivering better outcomes for Grenada.

- **Modernise and professionalise the Public Service** through investment in workforce planning, leadership development, succession, continuous learning, digital skills and performance management.
- **Develop the next generation of public sector leaders** through a Public Service Graduate Leadership Programme.
- **Support public officers with housing** through a Public Service Housing Assistance program.
- **Recognise excellence in public service** through a National Public Service Excellence Awards Programme.
- **Reward productivity and measurable results** with fair performance incentives recognising customer service, professionalism, leadership, integrity and innovation.
- **Encourage innovation across government** through a Government Innovation and Excellence Fund supporting ministries, departments and public officers that achieve verified improvements in efficiency, service quality and cost savings.
- **Drive national priorities from the centre of government** through a National Delivery Unit within the Office of the Prime Minister to reduce bureaucracy, remove implementation bottlenecks and monitor results.
- **Let working families keep more of what they earn** through policies that reduce the amount of income absorbed by taxation.
- **Reward hard work** with tax policies that support workers and productive effort.
- **Strengthen fiscal responsibility and public financial management** through keeping public accounts current and clearing the audit backlog.
- **Improve government efficiency and value for money** through measurable savings targets, regular performance reviews and optimisation of public resources.
- **Redirect verified savings to national priorities** with greater investment in healthcare, education, national security and social protection.
- **Transform public services around citizens** with a stronger focus on accessible, responsive, efficient and citizen centred government services.
- **Make government services simpler and faster** through streamlined procedures and reduced waiting times.
- **Measure citizens' experience with government services** through regular satisfaction surveys.

- **Bring government services closer to every parish** through expanded accessible parish based service delivery, while maintaining strong physical and digital service options so citizens have easier access to services close to where they live.
- **Give communities a stronger voice in national priorities** through stronger local coordination and participation.
- **Make licences, permits and approvals easier to obtain** through simplified administrative processes.
- **Keep laws and regulations fit for purpose** through continuous review of rules that obstruct investment, innovation, inclusion, productivity, accountability or effective service delivery.
- **Build integrated digital government** through one secure citizen account for online services, applications, licences, permits, payments and official records.
- **Connect government systems securely** using interoperable platforms, common data standards, digital identity and strong privacy and cybersecurity protections.
- **Use technology and AI responsibly to improve services** through digital innovation that raises productivity and improves public service delivery.
- **Open government contracting to greater public scrutiny** through publication of contracts, procurement awards, project implementation and beneficial ownership information.
- **Make the management of public assets transparent** through clear rules governing their use and disposal.
- **Strengthen independent oversight** with the support and resources needed for accountability institutions to perform effectively.
- **Protect whistleblowers** through stronger safeguards for persons reporting wrongdoing and misuse of public resources.
- **Raise ethical standards across public leadership** through stronger declarations, integrity training, codes of conduct and anti corruption enforcement for Ministers, Parliamentarians, senior public officers, statutory boards and state enterprises.
- **Expand access to public information** through strengthened Freedom of Information.
- **Restore meaningful social partnership** through a renewed Social Partnership and a Productivity and Innovation Council bringing together government, business, labour, education, youth, civil society, communities and faith based organisations.
- **Give citizens a stronger role in policymaking** through public feedback incorporated into policy design, implementation and evaluation.

- **Advance electoral reform through national consultation** by engaging citizens and stakeholders in reforms that strengthen democracy, accountability and participation.

PAYING FOR IT

A Better Grenada Plan must be ambitious, but it must also be realistic, responsible and affordable. We will fund our priorities through stronger economic growth, improved revenue collection, greater efficiency, responsible borrowing, strategic investment and stronger management of public resources, engage in public private partnerships, seek grant financing, improve the efficiency of State Own Enterprises, the use of reserves and accumulated surpluses while reducing waste and protecting taxpayers from unnecessary burdens. Every dollar of public money must deliver value, and every major investment must be carefully planned, transparently managed and aligned with Grenada's long term development priorities.

BUILD LASTING PROSPERITY FOR FUTURE GENERATIONS

- **Strengthen Grenada's fiscal position and safeguard long term financial stability.** Reduce national debt responsibly, restore sustainable primary surpluses, maintain a strong Fiscal Responsibility Framework, lengthen debt maturities, audit undisbursed commitments and follow the Medium Term Debt Management Strategy.
- **Get better value from every public dollar.** Reduce unnecessary expenditure while increasing and protecting investment in healthcare, education, agriculture, manufacturing, tourism, infrastructure, national security, social protection and economic growth.
- **Build national savings and protect future generations.** Establish a National Wealth Fund to build savings, invest revenues from strategic national assets and strengthen Grenada's ability to withstand economic downturns and national emergencies.
- **Protect Citizenship by Investment (CBI) revenues for long term national benefit.** Strengthen the management and use of CBI revenues to support national development and safeguard the country's long term financial interests.
- **Secure more affordable financing for national development.** Expand access to concessional and climate finance from multilateral, regional and international partners.

- **Expand sources of national revenue.** Expand compliant offshore financial services and establish a Grenada Ship and Marine Registry.
- **Increase revenue collection without raising tax rates.** Improve compliance, strengthen collection systems and recover outstanding revenues within the existing tax framework.
- **Increase revenue from ports, public assets and state owned enterprises.** Improve operational efficiency, strengthen revenue collection and ensure that public assets and enterprises deliver greater financial returns to the nation.
- **Increase earnings from tourism.** Expand tourism earnings and strengthen the contribution of tourism to national revenue and economic growth.
- **Expand support for agriculture, fisheries and agro processing.** Strengthen local production, value added processing and market access to increase earnings and reduce dependence on imports.
- **Develop new economic sectors.** Diversify the economy by developing emerging industries and new sources of employment, investment and national revenue.
- **Reduce energy costs and develop renewable energy.** Accelerate renewable energy development and energy efficiency to reduce electricity costs for households and businesses while strengthening national energy security.
- **Protect families and businesses from major shocks.** Expand disaster insurance, disaster risk financing and climate resilient investment so households, farmers and businesses can recover more quickly from disasters and economic shocks.
- **Strengthen fiscal responsibility and public financial management.** Keep public accounts current and clear the audit backlog.
- **Make the nation's financial position more transparent.** Publish timely information on debt, guarantees, statutory bodies, major projects and fiscal risks.
- **Digitise government services and reduce revenue leakage.** Expand digital payments, automated revenue collection and integrated government systems to improve efficiency, strengthen compliance and reduce lost revenue.
- **Continuously improve government efficiency.** Conduct regular reviews to identify opportunities for better performance, eliminate waste and achieve savings.

- **Require measurable savings across the government.** Set clear efficiency targets for ministries and public agencies, improve the allocation and use of public resources, and monitor results to ensure that savings are achieved.
- **Redirect verified savings to national priorities.** Invest savings in healthcare, education, national security, social protection and other priority areas, ensuring that efficiency gains deliver tangible benefits to the people of Grenada.

HOW YOU WILL HOLD US TO THIS

Our commitments must be more than promises made during an election; they must be commitments that the people of Grenada can track, question and hold us accountable for delivering. We will set clear priorities and measurable targets, report regularly on progress, publish information on government performance and spending, and create meaningful opportunities for citizens to provide feedback and raise concerns. We believe the people must have the information and the voice to hold the government accountable, because accountability is not something the government gives to the people; it is a responsibility the government owes to them.

- **Deliver results and make the Government accountable.** Establish a central National Delivery Unit with measurable economic targets and regular public scorecards.
- **Report openly on the performance of the economy.** Introduce legislation requiring an annual State of the Economy Report to Parliament and the nation covering specific areas like: jobs, investment, wages, debt reduction, business growth, the cost of living and implementation of the economic programme.

DAY 100 ACCOUNTABILITY REPORT

At the end of the first 100 days, we will publish a report showing what we promised, what we completed, what we started, what it cost and what comes next.

From Day One, Grenadians will see a Government that works with urgency, transparency and accountability.

YOUR CANDIDATES: CONSTITUENCY DIRECTORY

EXPERIENCE. RENEWAL. SERVICE.

The New National Party presents a renewed national team combining experience, professional competence, community service, fresh ideas and a shared commitment to building a Better Grenada for Everybody.

HON. EMMALIN PIERRE

Political Leader • St. Andrew South East

Hon. Emmalin Pierre is the Political Leader of the New National Party, Leader of His Majesty's Opposition and Member of Parliament for St. Andrew South East.

With more than two decades of political and public-service experience, she has served Grenada in Parliament and in Cabinet, including leadership in Education and Youth Development.

Her background in education, communication, leadership and community service has shaped a people-centred approach focused on opportunity, empowerment and results.

As the first woman elected Political Leader of the NNP, she represents a new generation of leadership that combines experience with renewal. She leads a diverse team united around a commitment to listen, serve with integrity and build a stronger, fairer and more prosperous Grenada.

NORLAND COX

Carriacou & Petite Martinique

A seasoned public servant and former Minister with experience spanning agriculture, healthcare, youth, sports, culture, infrastructure and public utilities. As Deputy Political Leader, he brings extensive government experience and a deep understanding of the needs and potential of Carriacou and Petite Martinique.

HON. KATE LEWIS-PETERS

St. Andrew North East

An experienced educator and parliamentarian with a background in accounting, international business and youth enterprise development. Her years in education and elected service bring a strong focus on young people, economic opportunity and community development.

ALVIN DA BREO

St. John

An experienced parliamentarian, entrepreneur and technology professional who has also served Grenada in ministerial office. He brings practical experience in business, communications, fisheries, environmental management and community development.

SEN. DWIGHT HORSFORD

St. George South East

An accomplished Attorney-at-Law and public servant with extensive legal and governance experience, including service as Solicitor General of Grenada and Attorney

General of Anguilla. He brings a strong understanding of law, institutional reform, public administration and good governance.

DR. ADRIAN JOSEPH

St. George North West

An experienced public servant of service in diplomacy, protocol and parliamentary administration. He brings institutional knowledge, management experience and a strong commitment to professional and accountable public service.

NIMROD OLLIVIERRE

St. George North East

A former senior law-enforcement professional with qualifications in Criminal Justice and Public Administration and a strong commitment to culture and community service. He brings experience in leadership, public safety, administration and cultural development.

JELANI GLEAN

St. Patrick West

A community advocate and communications professional with management experience and a longstanding interest in helping vulnerable people and strengthening communities. He brings energy, grassroots engagement and experience in communication, social outreach and community development.

TROY NOEL

Town of St. George

A finance and higher-education professional with experience in accounting, business administration and entrepreneurship. He brings an analytical and business-focused perspective to economic development, enterprise growth and the revitalisation of the Town of St. George.

CHRISTOPHER DEALLIE JR.

St. George South

An entrepreneur and business advocate with a strong interest in expanding opportunity, access to capital and professional development. He represents a new generation of leadership focused on enterprise, innovation, investment and creating opportunities for Grenadians.

NOLEEN THOMPSON

St. David

A businesswoman and former broadcaster with deep community roots and a strong interest in people and community development. She brings practical experience,

communication skills and a commitment to ensuring that the voices and needs of the people of St. David are represented.

AMANDA JAPAL-GEORGE

St. Andrew South West

A young entrepreneur, youth leader and advocate who represents the energy and aspirations of a new generation of Grenadians. She brings a strong focus on youth empowerment, entrepreneurship, community service and creating opportunities for young people to lead and succeed.

SEN. DR. MYANNA CHARLES

St. Mark

A medical doctor and Senator who brings frontline healthcare experience and a strong commitment to improving the wellbeing of Grenadian families. Her professional background provides an important perspective on healthcare reform, prevention, community wellness and compassionate public service.

ROBERT WHYTE

St. Patrick East

A playwright and cultural practitioner who brings creativity, communication and a strong appreciation for Grenada's culture and communities to public service. He represents the importance of ensuring that culture, people and community identity remain central to national development.

MARCIA FRANCIS

St. Andrew North West

An experienced educator and education administrator who has served as a school principal and Education Officer. She brings years of experience working with children, families, teachers and communities and a strong commitment to education, human development and community service.

ONE TEAM. ONE PURPOSE. A BETTER GRENADA.

Our candidates come from different professional backgrounds, generations and communities, but we are united by one purpose: to serve the people of Grenada, Carriacou and Petite Martinique with integrity, competence, compassion and accountability.

Together, we bring experience and renewal, professional expertise and grassroots understanding, established leadership and fresh ideas.

This is the new NNP team—ready to serve, ready to deliver and ready to build a Better Grenada for Everybody.
